

# British Science and Geography Week

## Journeys

Mahfuza from 6AF:

“On Monday morning, we launched our Science and Geography theme week titled ‘Journeys’. Oh what an amazing week it was! Jupiter Jack from the MadScience visited our school to do some ‘MadScience’. Everyone enjoyed his visit very much. Later that day, Year 6 began their rowing challenge around the world to link in with ‘Journeys’. We rowed as many metres as we could in five minutes. The children researched Sir Steve Redgrave (a British rower) and learnt all about him.

We absolutely enjoyed this week; it was not over just yet. On Friday, we had a ‘journey’ to Warwick Castle. We climbed up and down towers. It was challenging but we enjoyed it.”
